PROFESSIONAL SUMMARY

GTM operations, eCommerce, data analysis, digital media and design professional who builds and runs AI-assisted workflows inside live environments. Built a Claude and Google Sheets lead research system that cleans data and facilitates the prospecting of 1,000+ potential clients a week, an internal agentic SKU management system for one of the largest retail businesses in the country, and a Claude backed personalized advertisement targeting system. All with hand made, personalized designs tailored to exact business needs, small or large.
